Some Healthcare Industry Feedback Since 2010

Dear Vince,

I still remember the positive, uplifting feelings I had after leaving a talk you gave to a large group of Abbott employees in Orlando about 5 years ago. I remember putting the gold dot on my phone---somewhere I would see countless times in a day. I remember the goal I set for myself. I am glad to say that I accomplished that goal. The phone has changed with technology. The dot is long gone. However, the positive images you created with your passion and words remains

Kelly Dalsey - Territory Manager, Abbott Laboratories (11.24.10)

Dear Vince,

I very much enjoyed your presentation at the TAHC & H conference last August. Your topic about rude idols is so true! Registered Nurses have a saying that we "eat our own". Older RN's are so hard on new nurses because that is how they were treated as well. I try very hard to mentor anyone who reaches out to me and try to lead by example. Keep up the great insights!

Kasey Floyd BSN,RN – Administrator, Memorial Hospital Home Health Agency (11.18.10)

Vince,

The Sales Reps really enjoyed your talk, but more importantly they were able to apply solid takeaways. The conversations were around..."Do what the competition is not willing to do." I also discussed with my kids your book and the fact that the mind can only contain one thought at a time...that there is a battle between positive and negative thoughts and we have the power to choose no matter the circumstances.

Blaine Stephenson – Account Representative, Medtronic (6.23.10)

Hi Vince.

Just got in survey results from our [leadership summit](#) and think you'll find them gratifying (84% 5/5, 11% 4/5, 4% 3/5, 1% 2/5)... certainly confirms for me that bringing you in was an EXCELLENT fit!

Gale Rothwell - Sr Director HR, CT/NM/Cleveland, Imaging Systems, Philips Healthcare (5.6.10)
